REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claim 6 has been allowed because the prior art of record does not teach or render obvious the total combination claimed, including an alphanumeric keyboard, the keyboard having a lower surface, and an object attached to the keyboard along at least a portion of the lower surface of the keyboard, the object being adapted for providing a cushioned region between the keyboard and a resting place, wherein the object comprises one of a football, a soccer ball, volley ball, basketball, and rugby ball. The RadioShack and Australian Patent Application (AU2002100300B) prior art remote controls do not teach an alphanumeric keyboard as understood in the art, nor do they teach or render obvious the requirement for a separate keyboard with a lower surface that is attached at the lower surface to a ball as claimed.

Claim 19 has been allowed because the prior art of record does not teach or render obvious the total method claimed, including making an alphanumeric keyboard, connecting a transmitter to the keyboard, attaching a cushioned object to at least a portion of a lower surface of the alphanumeric keyboard, and selecting the cushioned object to have a shape resembling a toy or sports object. The RadioShack and Australian Patent Application (AU2002100300B) prior art remote controls do not teach a method of making an alphanumeric keyboard as understood in the art, nor do they teach or render obvious the steps of making a separate keyboard and attaching a cushioned object to at least a portion of a lower surface of the keyboard.
